## Summary

---

Am a motivated Software Engineer having relevant experience having worked as a Software Engineer for 2 years. I have practical experience in software development, testing, specifications, and security policy. I am competent in application installation and application testing. I possess a proven ability to assist in the day-to-day running of an IT department and its business IT systems. I have proven experience working in fintechs.

## Experience

---

### **Freelancer | Nairobi County, Nairobi** **Software Engineer | 02/2020 - Present**

- Performed software testing, provided 24/7 support to clients, and developed plans for future software development.
- Maintained software products including programs, webpages, and databases
- Designed and implemented a software-as-a-service platform for clients
- Developed custom software solutions for clients

### **AIMSEC LTD | Nairobi County, Nairobi** **Backend Developer | 02/2023 - 03/2023**

- Developing APIs for rent and property management.
- Writing github workflows for CI/CD.

### **BodaPay(fintech) | Nairobi County, Nairobi** **Software Developer | 06/2022 - 02/2023**

- Worked with departments across the company, including marketing and project management, in developing new ideas, initiatives, products, and services
- Continually updated a leadership resume and honed skills by participating in various management training.
- Building the backend API for the financial app and integrating it with external financial APIs.

### **Phindor | Nairobi County, Nairobi** **Software Developer | 08/2022 - 11/2022**

- Building a backend API for a React Native app which users can request a health community worker anywhere they are.
- Updating outdated API versions which was running on the app backend.
- assisted the frontend team in designing the mobile app using React Native for IOS and Android.
- Improved equipment maintenance and safety standards by 10%, which resulted in a 40% reduction in maintenance costs
- Developed relationships with new staff members, and assisted existing staff members in their career development.
- Provided customer service and was involved in training 10 new team members each month.

### **Meliora Technologies | Nairobi County, Nairobi** **Volunteer Work | 07/2022 - 09/2022**

- Volunteered as a frontend developer in Natujenge Hackathon which started August 2022 (AngularJS)

### **XOBO | Nairobi, Nairobi** **Software Developer | 05/2022 - 08/2022**

• Building E-commerce backend API from scratch which would later serve vendors all around the globe. The platform functionality is to give users the opportunity to sell or buy their goods on the company's website where after the process of buying and selling has been completed XOBO would be notified to deliver the goods from the merchant store to the buyer.

.Also learned and implemented Daraja APIs which would let users pay for goods by MPESA.

- Integrated Google Maps to help XOBO determine the location of the buyer and the merchant.

## Skills

---

Node.js, React Native, React.js, Python, MongoDB, GitHub, JavaScript, HTML5, CSS3
